

การสืบค้นและทบทวนวรรณกรรม

Searching and Reviewing the Literatures

Ekarat Chanwanpen, MD.
Sichon Hospital

ความหมายของการวิจัย

- การวิจัยเป็นการค้นคว้าอย่างเป็นระบบ มีเหตุมีผล เพื่อผลิต ความรู้ใหม่
- ความรู้ใหม่ อาจเป็นความรู้ใหม่ เชิงทฤษฎี หรือการประยุกต์ปฏิบัติก็ได้ แต่ต้องอยู่บนรากฐาน ของความถูกต้อง
- โดยต้องพยายาม หลีกเลี่ยง ความแปรปรวน และอคติต่าง ๆ ที่ อาจเกิดขึ้น
- โดยใช้รูปแบบการวิจัย วิธีการวิจัย และสถิติที่เหมาะสม

ความรู้มีอยู่ 2 ประเภท

รู้ในตัวเองหาโดยตรง หรือ...

รู้ว่าจะไปหาข้อมูลเหล่านั้นได้ที่ไหน

*Dr. Samuel Johnson, English essayist and
lexicographer, 1709-1784*

ประสบการณ์
ค้นหา **Literature** เป็นอย่างไร?
หาที่ไหน? ได้คำตอบ?

FACT !

*แหล่งข้อมูลเพียงที่เดียวไม่สามารถช่วยให้
เข้าถึงงานตีพิมพ์ได้ครบทุกรูปแบบ*

แหล่งข้อมูลต่างๆ

1. ฐานข้อมูลทางคอมพิวเตอร์ (*Databases*)
2. วรรณีวารสาร (*Indexing/Abstracting Journals*)
3. รายการจัดเก็บในห้องสมุด (*Library Catalogues*)
4. บรรณานุกรม (*Bibliographies*)
5. เครือข่ายคอมพิวเตอร์ที่เชื่อมโยงกันทั่วโลก (*Internet*)

1. ฐานข้อมูลทางคอมพิวเตอร์ (*Databases*)

- เป็นแหล่งข้อมูลทางอิเล็กทรอนิกส์ (Electronic resources)
 - **Journal**
 - Pubmed
 - Web of Knowledge Citation Indexes
 - **Books, Reports, Unpublished material**
 - CAB Abstracts
 - Popline
- ควรอ่านวิธีใช้ของแต่ละฐานข้อมูลก่อนทำการสืบค้น

World-renowned CAB Abstracts is the largest professionally-produced database covering international issues in agriculture, forestry, and allied disciplines in the life sciences. The database contains over 5 million records from over 9,000 journals, books, and conference proceedings.

Subjects covered include:

- * Agriculture, including animal production and welfare, horticulture, crop science and protection, applied economics and rural studies
- * Animal and Veterinary Sciences, including animal nutrition, entomology, aquaculture and equine science
- * Environmental Sciences, including, e climate change, forestry, soil science, hydrology
- * Human Health, Food and Nutrition, including food science and communicable diseases
- * Leisure and Tourism
- * Microbiology and parasitology, including mycology, bacteriology and virology
- * Plant Sciences, including biotechnology, plant protection, and crop science

Coverage is from 1973 to the present, with abstracts in English prepared from papers originally published in over 75 different languages.

CAB Abstracts now includes Full Text Select, a growing list of more than 40,000 full-text documents, including conference proceedings, reports, and difficult-to-find journal full text from around the world. The repository contains PDF full

2. ครรชনীวารสาร

(Indexing/Abstracting Journals)

- เป็นต้นกำเนิดของ database
- ใช้ดัชนีหัวเรื่องและผู้แต่ง เช่น
 - *Index Medicus* ซึ่งต่อมาได้กลายเป็น database คือ *Medline/Pubmed* ตั้งแต่ปี ค.ศ. 1879

3. รายการจัดเก็บในห้องสมุด (Library Catalogues)

ตัวอย่างระดับนานาชาติ

- Pub Med NLM Catalog

<http://www.nlm.nih.gov/bsd/viewlet/nlmcat/catalog.html>

- Johns Hopkins University,

<https://catalog.library.jhu.edu/ipac20/ipac.jsp?profile=default#focus>

ตัวอย่างที่สำคัญในประเทศไทย

- PSU Catalog library

• http://uc.thailis.or.th/cgi-bin/gw/chameleon?lng=en&skin=psu_cl

- Sirirai Catalog Library

• http://www.medlib.si.mahidol.ac.th/siriraj/index.php?option=com_wrapper&Itemid=345

- มักเป็น gray หรือ 'fugitive' literature
- รายงานต่างๆจากทางราชการ(Government reports)
- อาจจะเป็น Traditional Catalogues หรือ Online Catalogues

Gray literature

- a name for the mass of information that falls outside the mainstream of published journal and monograph literature.
- **Scientific conferences** and **symposia**.
Publish proceedings, collections of papers presented at the **meeting**

5. เครือข่ายคอมพิวเตอร์ (*Internet*)

- เข้าถึง **full-text** หนังสือ รายงาน และ งานวิจัยที่เป็น *gray literature*
- **Caution !** ไม่สามารถควบคุมคุณภาพของข้อมูลที่น่าเสนอ
- **Trusty resources** ได้แก่ ข้อมูลที่มาจากองค์กรต่างๆ เช่น มหาวิทยาลัย องค์กรระหว่างประเทศเช่น **WHO NGO**
- **Google**
 - ไม่ครอบคลุม research literature
 - ประโยชน์ : ค้นหา full text บน web, email addresses และ web pages ของนักวิจัยคนอื่นๆ

หลักในการค้นหาแหล่งข้อมูล

ไม่มีแหล่งข้อมูลใดครอบคลุม
literature ทุกรูปแบบ

- Medline เน้น clinical/life sciences
- Health-star เน้น Health policy & Planning

แต่ละแหล่งข้อมูลจัดเก็บรูปแบบ
references ต่างกัน

- Book, journal, theses, conference
- English or non English Language
- Location: Western countries, Asia

บางแหล่งมีข้อมูลย้อนหลังนานกว่า

- Pub med 1879
- Cochrane library

แหล่งข้อมูลถูกวางระบบไว้อย่างไร ?

เรียงชื่อคำสำคัญทุกคำในแต่ละสาขา (A structured thesaurusa)

- Medline, EMBase and Health-star
- <http://www.ncbi.nlm.nih.gov/sites/entrez>
- ข้อระวัง :terms /concepts ใหม่ ๆ อาจยังไม่ได้รวมไว้

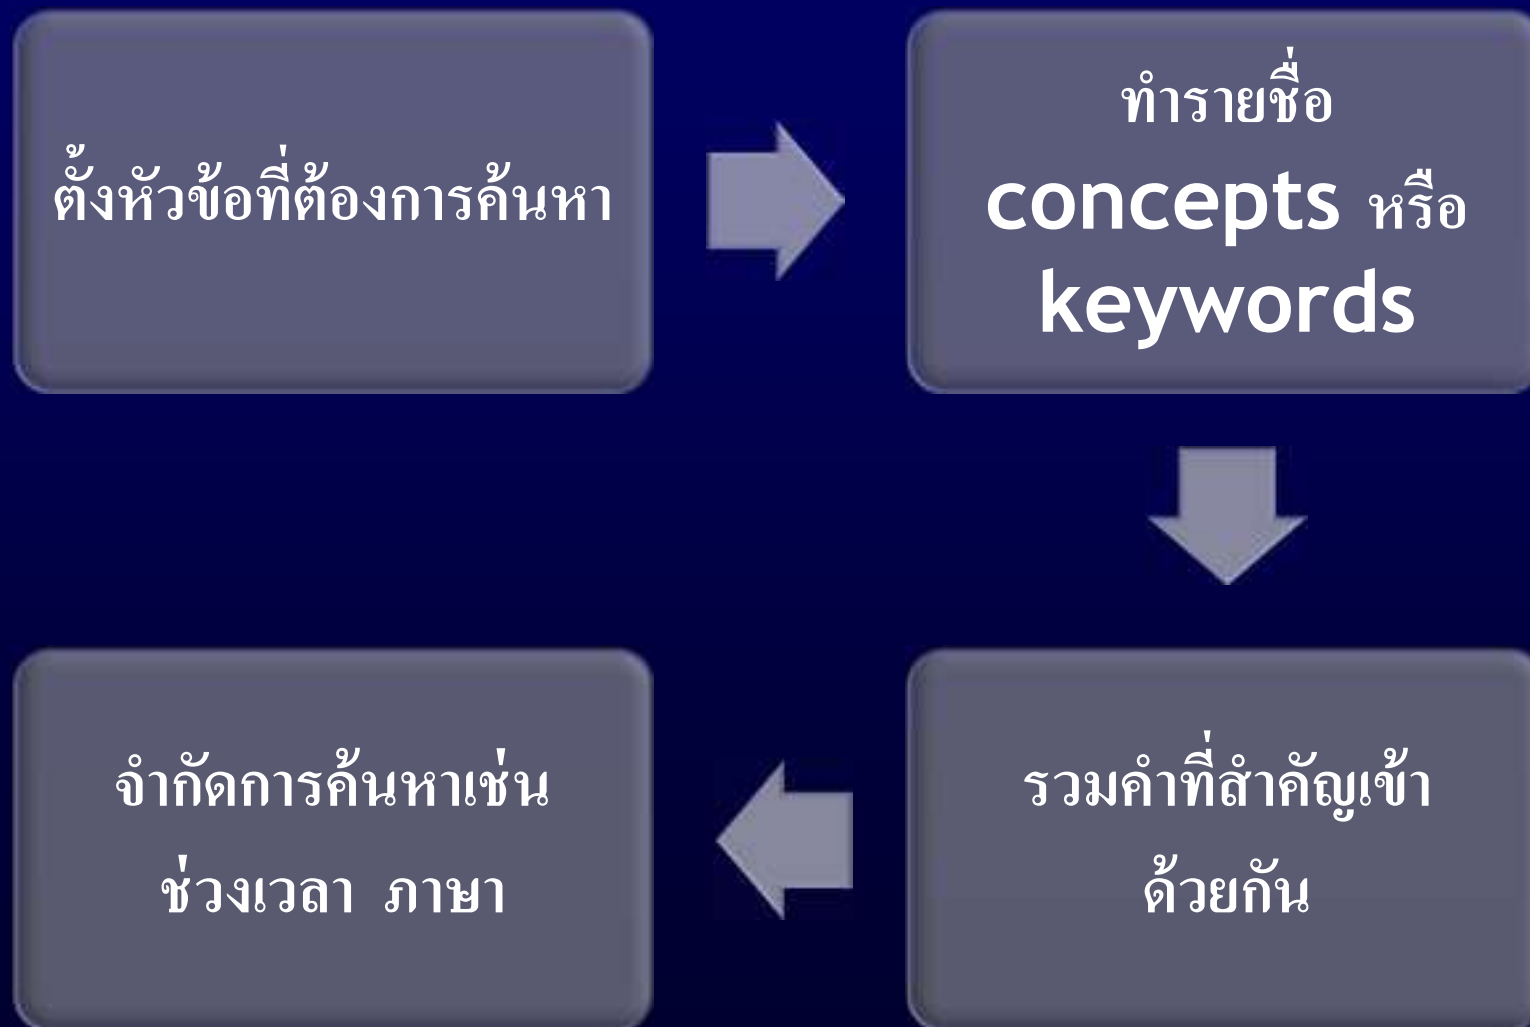

ใส่คำที่ต้องการค้นหาด้วยตนเอง (Searcher identifying keywords)

- Synonyms
- Spelling of the same word (e.g. centre -English vs. center-America)
- Endings (singulars and plurals)
- สามารถหาคำที่ใช้บ่อยได้จากวารสารที่เกี่ยวข้องเตรียมไว้ล่วงหน้า

ค้นหาจากอ้างอิง (Citation searching)

- Scisearch
 - <http://scientific.thomson.com/products/sci/>
- Social Scisearch
 - <http://scientific.thomson.com/products/ssci/>
- Art & Humanities
 - <http://scientific.thomson.com/products/ahci/>

ขั้นตอนการค้นหาข้อมูล

ตัวอย่าง ขั้นตอนการค้นหาข้อมูล

1. ตั้ง topic ที่ต้องการค้นหา

“ Cost-effectiveness of immunization programs in Africa ”

ตัวอย่าง ขั้นตอนการค้นหาข้อมูล

2. จัดทำรายชื่อ concepts หรือ keywords

- Thesaurus term หรือ 'Free text' เช่น :

Cost-effectiveness	Immunization	Africa
cost-effective	Immunization	Africa
cost-benefit	immunization	African
cost(s)	Vaccination	Africans
budgetary		
financial		
cost-utility		
Economic evaluation		

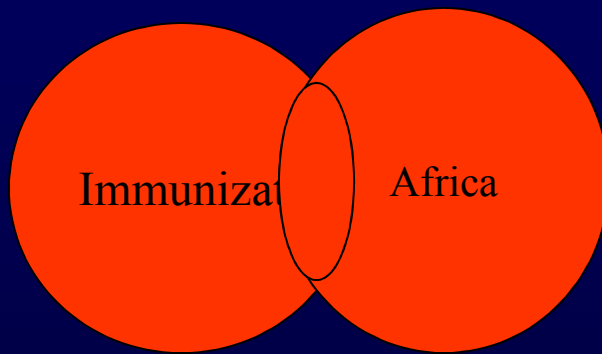

TIP !!

1. ใช้ * หรือ \$ หรือ ?

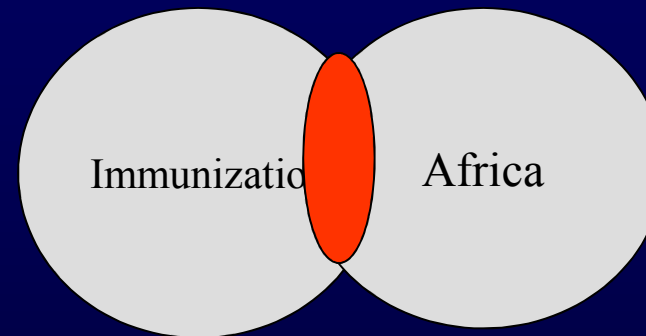

เช่น **Africa*** = **Africa or African or Africans**

2. ใช้ “.....” เพื่อค้นหา *Exactly Topic*

การรวมคำที่สำคัญเข้าด้วยกันด้วย Or/Not/And

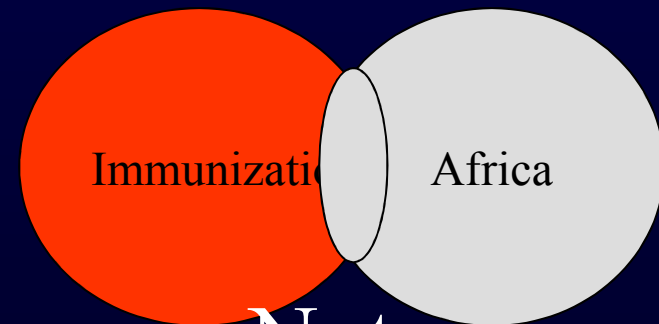

Or

AND

สีแดงคือต้องการค้นหา

Not

MeSH=Medical Subject Heading

The screenshot shows the PubMed.gov homepage. At the top, there is a search bar with "PubMed" selected and a "Search" button. Below the search bar, there is a "Welcome to PubMed" section with text: "The PubMed database comprises more than 19 million citations for biomedical articles from MEDLINE and life science journals. Citations may include links to full-text articles from PubMed Central or publisher web sites." To the right of this text is a "Rapid Research Notes" logo. Below the welcome section, there are several columns of links. A yellow callout box with a black border points to the "MeSH Database" link in the "More Resources" column. The callout box contains the text: "Access the MeSH database by choosing this option on the PubMed home page,". The "More Resources" column also includes links for "New and Noteworthy", "PubMed Tutorials", "Journals Database", and "Clinical Trials".

Access the MeSH database by choosing this option on the PubMed home page,

The image shows a screenshot of a web browser displaying the MeSH (Medical Subject Headings) database search interface. The browser's address bar shows "Searching with the MeSH Database". The page header includes the NCBI MeSH logo and navigation tabs for "All Databases", "PubMed", "Nucleotide", "Protein", "Genome", and "Structure". A search bar contains the text "Search MeSH for nosebleed". Below the search bar are buttons for "Limits", "Preview/Index", "History", "Clipboard", and "Details". The main content area features a paragraph explaining MeSH as NLM's controlled vocabulary, followed by a bullet point: "Use the MeSH database to find MeSH Terms and build a search strategy." Below this is a section titled "MeSH database tutorials:" with three bullet points, each accompanied by a "Quick Tour" icon: "Searching with the MeSH Database", "Combining MeSH Terms", and "Applying Subheadings and other features of the MeSH Database". A left-hand navigation menu lists various services like "About Entrez", "Text Version", "Entrez PubMed", "PubMed Services", and "Journals Database".

Recent Activity

Anaphylaxis in the United States: an investigation into its epidemiology.

- [Neugut AI](#), [Ghatak AT](#), [Miller RL](#).
- **BACKGROUND:** Anaphylaxis is a severe, life-threatening allergic reaction that affects both children and adults in the United States. However, data regarding the incidence and prevalence of anaphylaxis and the number of deaths caused by it are limited. **OBJECTIVE:** To provide a better understanding of the magnitude of the problem of anaphylaxis in the United States. **METHODS:** A thorough review of the current medical literature was conducted to obtain prevalence estimates on each of the 4 major subtypes of anaphylaxis (food, drugs, latex, and insect stings). We calculated an overall estimate of the risk of anaphylaxis by using only estimates that are specifically derived from epidemiologic studies measuring anaphylaxis in the general population. **RESULTS:** Known rates or cases of anaphylaxis were 0.0004% for food, 0.7% to 10% for penicillin, 0.22% to 1% for radiocontrast media, and 0.5% to 5% after insect stings. There were 220 cases after latex exposure. Considering the 1999 US population of 272 million, the population at risk for anaphylaxis from food is 1099, from penicillin is 1.9 million to 27.2 million, from radiocontrast media is 22 000 to 100 000, from latex is 220, and from insect stings is 1.36 million to 13.6 million. These calculations yield a total of 3.29 million to 40.9 million individuals at risk of anaphylaxis. **CONCLUSION:** The occurrence of anaphylaxis in the US is not as rare as is generally believed. On the basis of our figures, the problem of anaphylaxis may, in fact, affect 1.21% to 15.04% of the US population.

Stinging insect allergies. Assessing and managing.

- [Glaspole I, Douglass J, Czarny D, O'Hehir R.](#)
- Department of Allergy and Clinical Immunology, Alfred Hospital, Melbourne.
- **BACKGROUND:** Mortality secondary to insect sting anaphylaxis, though uncommon in this country, is a genuine risk to patients with venom hypersensitivity. A number of non specific and specific preventive measures are available to minimise this risk. They include proper patient counselling regarding sting avoidance and the use of self injectable adrenaline, as well as venom specific immunotherapy. **OBJECTIVE:** This article attempts to review the spectrum of insect sting reactions, their appropriate assessment and subsequent management. Anaphylaxis is particularly emphasised with regard to first aid treatment and subsequent prevention. **DISCUSSION:** The most common causes of insect stings in Australia are bees and wasps. Insect sting reactions cover a spectrum of responses, from normal to anaphylactic. Immunotherapy is indicated in those patients who experience anaphylactic responses. The presence of venom specific IgE must be demonstrated before commencing immunotherapy. Venom sensitive patients should be educated in anaphylaxis first aid with adrenaline self injectable syringes.
- PMID: 9470293 [PubMed - indexed for MEDLINE]

Aust Fam Physician. 1997 Dec;26(12):1395-9, 1401.

Anaphylaxis in adults referred to a clinical immunology/allergy centre in Singapore.

- [Thong BY, Cheng YK, Leong KP, Tang CY, Chng HH.](#)
- **INTRODUCTION:** To study the clinical features and causes of anaphylaxis in consecutive adult patients referred to a clinical immunology/allergy centre in Singapore. **METHODS:** A retrospective review of 67 consecutive adults with anaphylaxis who presented from July 1, 1998 to February 28, 2002 was performed. Anaphylaxis was defined as a severe life-threatening systemic IgE-mediated hypersensitivity reaction. Non-steroidal anti-inflammatory drug-induced idiosyncratic reactions and other non-IgE mediated reactions were excluded. Hypotension and bronchospasm were not required to make a diagnosis. The aetiology was determined from clinical history followed by measurement of allergen-specific IgE levels, skin prick test with commercially-available allergen extracts or prick-prick test with the fresh/cooked/canned food products. **RESULTS:** The mean age of patients was 32.9 +/- 10.9 (range 19-57) years. There were 44 (65.7 percent) males and 23 (34.3 percent) females. The main causes were food (44.8 percent), insect stings (32.8 percent) and idiopathic (22.4 percent). There were no cases due to drugs or natural rubber latex. Seafood (crustaceans and molluscs) comprised 66.7 percent of food-induced anaphylaxis. Honeybee and wasp stings together comprised 45 percent of insect venom anaphylaxis. The most common manifestations were dyspnoea (59.7 percent), urticaria (58.2 percent), angioedema (44.8 percent), and syncope (43.3 percent). Hypotension was documented in only 28.4 percent of cases. **CONCLUSION:** Food (crustaceans and molluscs) was the most common cause followed by insect stings or bites. The inability to identify the causative insect in 50 percent of cases with insect venom anaphylaxis limited the role of specific immunotherapy. Compared to other reported series, there were no cases of drug or latex anaphylaxis.
- PMID: 16172772 [PubMed - indexed for MEDLINE]

Feature

Wireless monitoring in chronic heart failure

Ever since what is now called heart failure was first recognised as a disorder of excessive fluid accumulation, the holy grail of its management has been to accurately evaluate volume status in a timely and ongoing manner. Results from [The CHAMPION Study](#) suggest that the use of an implanted device to remotely monitor pressures within the pulmonary arteries could reduce hospitalisation by 39%. The findings are also discussed in a [Podcast](#).

วารสาร
ปีที4 ฉบับที่ 3 น.ค.-ก.ย. 2553
เนื้อหาในวารสารฉบับนี้ซึ่งคงความหมายและคุณค่าไว้ได้ ตลอดระยะเวลา 3 ปีของการดำเนินงานวิจัยวิชาการ และมีบทความที่น่าสนใจให้ติดตาม

ปีที4 ฉบับที่ 2 เม.ย.-มิ.ย. 2553
ดูสารบัญวารสารฉบับที่ 2 พ.ศ. 2553 ซึ่งคงมีความหมายอันไม่แพ้ฉบับก่อนๆ ที่ผ่านไปแล้ว โดยเฉพาะมีวิทยะสังขมถึง 10 เรื่อง มากกว่าฉบับที่ 1 ถึง 9 เรื่อง สำหรับบทความพิเศษ 4 เรื่อง

จำนวน : 1238 | ปีที่ 4 ฉบับที่ 3 เดือน 2553

จำนวน : 1303 | ปีที่ 4 ฉบับที่ 2 เดือน 2553

แนวทางการค้นหาข้อมูล

- **Web-based resources** ที่เลือกใช้
- คำหรือรูปแบบที่ใช้ในการค้นหา
- จำนวน **Articles** ที่เกี่ยวข้องที่ปรากฏ
- ชื่อ **Article** ที่เลือกอ่านเพื่อตอบปัญหา
(ชื่อเรื่อง ชื่อผู้แต่ง และ ชื่อวารสาร, ปีที่ตีพิมพ์)
- **Abstract/ Full text**
(ฝึกการอ่านบทความภาษาอังกฤษ)
